

Vigilant Label Pharmaceutical Color Chart

Please see the below matrix discussing our colors. These are industry standards for anesthesia practice. Our white labels are simply "open" labels for any drugs they want to add. An example is on our Obstetrics template where we add Pitocin and other labor-specific medications.

	Narcotic	Pain
	Paralytic	Muscle Relaxant
	Anxiolytics	Remove Anxiety
	Induction	Put to sleep
	Anticholinergic	Speed Heart Rate
	Pressers	Blood Pressure
	Local Anesthetic	Paralyze
